

THE CAUCASIAN.

Entered according to Postal Laws at Clinton, N. C., as second class mail matter.

CLINTON, N. C.,—APRIL 25, 1889.

THE CAUCASIAN'S RECORD.

CIRCULATION: 1,445.
One year ago it was less than 800. During the last seven weeks we have mailed over 12,000 copies.

Next Tuesday—glorious April 30th—is a legal holiday.

A case of yellow fever is reported at Sanford, Florida.

Reidsville, N. C., suffered a heavy loss by fire last week.

Postmaster Pearson, of New York City, died suddenly last Saturday.

New York has had a destructive fire, about \$3,000,000 in ashes. The buildings were stored with oil, so water had no effect.

The opening Exercises of the new Health and Sporting Resort, Avoca, was commenced on Tuesday and will last until tomorrow.

The latest thing in the shape of a trust is a newspaper trust. All the leading papers in New York, except the N. Y. Star, have formed a trust to raise the price of their sheets. As a consequence the Star is gaining in circulation, while the others are losing.

Secretary Rusk has appointed three North Carolina negroes to positions in the Agricultural Department. Two of these are Wilson Carey, member of the North Carolina Legislature, and John A. Hyman, ex-member of Congress from North Carolina.

The Oxford edition of the State Chronicle was a handsome illustrated issue, alike creditable to the editor and the enterprising town of Oxford. We decidedly prefer "write ups" like this to those in Northern papers. Let other towns follow the good example.

The government has bought 1,800,000 acres of land near the centre of the Indian Territory from two Indian tribes. This land was laid off into 10,000 homesteads by the government and opened for settlement by the whites on last Monday. There are about ten families to every homestead that desire to move in. We imagine that it would be a good place for lawyers.

Palm Sunday: Last Sunday was the celebration of Christ's triumphal entrance into Jerusalem.

Good Friday: To-morrow is the anniversary of the crucifixion of Christ.

Easter Sunday: Next Sabbath is the anniversary of the rising of Christ from the Sepulchre.

These are the days observed during the last week in Lent.

The above are the words we wrote for last week's issue; the words in italics were omitted by the printer through an oversight.

Some two weeks since a vessel called the Danmark sailed from Europe bound for America with about 800 passengers, which was about 200 more than its estimated safe capacity. A few days ago the floating, but sinking hull of the abandoned vessel was seen at sea. Great anxiety was felt for fear that the crew was lost, but news now comes that another vessel, the Missouri, happened to pass in the hour of peril and distress and rescued the crew, but at the expense of dumping her entire ship load of freight into the ocean in order to make room for them.

A recent decision of the Supreme Court (Hester vs Lawrence) says:

"The notice to creditors required by sections 1451 and 1452 of the Code in a special proceeding to compel an administrator to account of his administration and to pay creditors must be duly made in strict conformity with the statute, otherwise the judgement rendered in the cause will be without authority. An administrator, even if guilty of a devastating, may except if the proper notice has not been given, as he has the right to be protected by the judgment against suits of other creditors, and other creditors are not bound unless legally notified."

We invite the careful consideration of all administrators to the above.

OUR FARMERS COLUMN.

SOMETHING INTERESTING TO THOSE WHO TILL THE SOIL.

So many agricultural papers are published and articles written by men, who have little or no practical experience as farmers, that information and suggestions through such mediums have fallen into disrepute, and does but little good. In view of this fact, we wish to get the views and tested plans of practical farmers forth in columns each week. So farmers, send in an account of your success in any branch of Agriculture, for the benefit of the fraternity.

Are you preparing manure for the next year? If not, commence now and you can save your guano bill next year. Remember, manure is the backbone of the farm.

Farmers, have any of you planted a mortgage on your farms this year? If so, don't cultivate it any further, for though its fruits are bountiful, yet they are not only unprofitable, but positively dangerous.

No delay should occur to destroy the caterpillars, as they will quickly festoon the trees with their webs. The sooner they shall be removed the easier the work, as the young worms can now be caught in the web.

—N. C. Farmer.

The Pig's Pulse in his Tail.
An authority on pigs says that he never thinks of cutting off the tails of his pigs. The tails are the indicators of the porker's condition. If a pig doesn't feed well, if his food doesn't agree with him his tail begins to straighten. The sick pig the pig the straighter the tail, and the healthier the pig the tighter the curl. The old theory that it takes a bushel of corn to fatten an inch of tail the pig raiser scorns. The pig's tail is his pulse, therefore never cut it off.—Omaha Herald.

Treatment for Founder.
In the first stage of founder in horses moderate doses of acetone should be given, and the animals covered with warm blankets, to cause or encourage perspiration. Put in advance stages, and when the feet have become tender, poultices should be applied, after removing the shoes. If the injury is but slight then turning out to pasture in summer will usually effect a cure, especially if the ground is low and somewhat moist. The main thing is to remove the fever from the feet, for as long as these are tender and sore the horse will be lame.—N. Y. Sun.

ARE YOU ONE OF THEM?
A few of our subscribers have so far failed to respond to our call. If they—only knew how unpleasant it is for us to ask you for money, you would never cause us this pain again. To run a first class newspaper is very expensive, and such a one we propose to continue to publish, and those who wish to receive it must pay promptly. \$1.50 is a small amount to each one of you, but when 50 or 100 of you fail to pay, it is considerable to us—more than we can afford to lose. If you come to court next week, call up and settle; if not do us the justice to remit by mail.

D. F. St. Clair, who made a serious charge last year against Judge Phillips, in his paper, the Sanford Express, has made a full retraction. Therefore the suit for libel against the editor has been taken out of court. Mr. St. Clair made his charge on hearsay evidence, and upon being convinced that he was mistaken, has the manhood to make the *amende honorable*.

Fashion Notes.

Plain killed skirts without any drapery are very fashionable, and their first cousin in style, the accordion skirt, will in all probability be more worn than any other style during the summer.

Sashes are all the rage and no woman, no matter what her age, who can possibly have one, considers her wardrobe complete without this addition to it. Some think that they make an old person look younger, while others consider them absurd for any but young people. Hats, as a rule, are low and flat; but the trimming brings them up to any height desired. This is decidedly a flower season, and art rivals nature in the variety and beauty of the blossoms produced.—Godey's Lady's Book.

Deafness Can't Be Cured by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube becomes inflamed, it causes a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
 We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

Hantour vs. Humility: "What a haughty, dignified lady Mrs. Dag-battle is!" Humility: "Why, the last time I ever saw her she was the picture of humility." "Really! When was that?" "A week or two ago." She was talking to her servant girl, Liverpool Mercury.

Where does Belkins come from?
 "Oh, nowhere in particular; his fa-ther is a soda water man." Ahem! I always thought he looked like a squirt.

Jones—Shall I give you a ride on my knee, Tommy? Little Tommy: Yes, but don't go as fast as my other donkey.

Husband? "Wife, Dr. Smith, the chiropodist will dine with us to-day." Wife: All right; I'll order corned beef.

EASTER.
 Like a mother, large and bright,
 Fell a golden seed of light
 On the field of Christmas night,
 When the babe was born.
 Then 'twas replanted in the gloom,
 Till above his holy tomb
 Flashed the everlasting bloom,
 Flower of Easter morn!

Physicians Confess.
 All honest, conscientious physi-cians who give B. B. B. (Botanic Blood Balm) a trial, frankly admit its superiority over all other blood medicines.
 Dr. W. J. Adair, Rockmart, Ga., writes: "I regard B. B. B. as one of the best blood medicines."
 Dr. A. H. Rouse, Nashville, Tenn., writes: "All reports of B. B. B. are favorable, and its speedy action is truly wonderful."
 Dr. J. W. Rhodes, Crawfordsville, Ga., writes: "I confess B. B. B. is the best and quickest medicine for rheu-matism I have ever tried."
 Dr. S. J. Farmer, Crawfordsville, Ga., writes: "I cheerfully recom-mend B. B. B. as a fine tonic altera-tive. It is used as an exercise of the neck after other remedies ef-fected no perceptible good."
 Dr. C. H. Montgomery, Jackson-ville, Ala., writes: "My mother in-law, who has been suffering for her rheumatism, as her case stubbornly resisted the usual remedies. She ex-perienced immediate relief, and her improvement has been truly won-derful."

A prominent physician who wish-es his name not given, says: "A pa-tient of mine whose case of tertiary syphilis was surely killing him, and which no treatment seemed to check, was entirely cured with about twelve bottles of B. B. B. He was fairly made up of skin and bones and ter-rible ulcers."
 Mr. Bookus—Here's a dress pat-tern I brought home for you. Mrs. Bookus—Oh, and it's just lovely. You. Mr. Bookus—Only twenty-five cents a yard. Mrs. Bookus—Take the hor-rid old cheap stuff back.—Terre Haute Express.

JAMES MEANS' \$3 & \$4 SHOES
 "Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively trade is, or how hard our competitors have to work to keep within sight of us. Ask your retailer for the James Means' \$3 shoe, or the James Means' \$4 shoe according to your needs. Positively none genuine unless having our name and price stamped plainly on the sole. Your retailer will supply you with shoes as stamped if you insist upon his doing so; if you do not insist, some retailers will coax you into buying inferior shoes upon which they make a larger profit.
 Such has been the recent progress in our branch of industry that we are now able to offer to the country. We will place them easily within your reach in any State or Territory if you will invest one cent in a postal card and write to us.
